

# **Estonian usecase: public-private cooperation in building resilient digital society.**

**Estonian Association of Information technology and Telecommunications (ITL) & CyberTech Cluster**

# Estonian technology sector in numbers

**15 971**

Companies

**#3**

global cyber  
security index

**38 942**

Sector employees

**11%**

is the ICT sector's  
contribution to  
Estonia's GDP

**90**

Cybersecurity  
companies

**#1**

European leader  
in unicorns  
per capita

# Why cyber security matters in Estonia?

Secure by design

- + first and so far largest cyber attacks against a nation state in 2007
- + home of NATO CCDCOE and EU IT agency
- + cyber defence league and cyber command
- + Strong public-private partnership

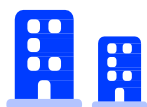

**We gather the most innovative e-Estonia  
companies and act as neutral one-stop-shop for  
our collaboration partners**

# 26 years of technology sector development

## LOCAL COOPERATION PARTNERS

Ministries  
Public authorities

Vocational and higher  
education institutions

SA

Sector-specific  
foundations

Other sectoral  
associations

Startup community

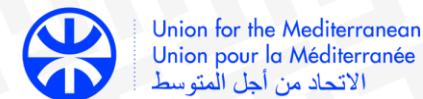

140  
members

Workforce and  
education

Politics and business  
environment

Business development  
and export

## INTERNATIONAL COOPERATION PARTNERS

Transport & logistics

Climate

Education

Defence

Core capabilities we have mastered:

-  AI & Machine Learning
-  CyberTech
-  Big Data & Data Analysis
-  Robotics & IoT

Government

Finance

Production

# ITL & CyberTech Cluster

- Formed 2024 by ITL
- Support international business cooperation
- Build joint projects, pilots & exercises
- Promote innovation & cyber skills
- Single point of contact for public sector

# What CyberTech Cluster does – why cooperate

Awareness raising campaigns in public-private cooperation

International promotion in the field of cybersecurity

Cybersecurity trainings for other economical sectors

Development of cybersecurity ecosystem (politics, regulations etc)

# International cooperation examples

- Women is cyber conference (Estonia, Moldova, Ukraine and Azerbaijan)
- Cyber ranges all over world: Critical Infrastructure Defense Challenge 2025 in Azerbaijan
- 7 CyberHubs in EU, 21 partners, with aim to enhance the cybersecurity skills ecosystem in Europe
- Tallinn Mechanism for Ukraine civilian sector cybersecurity

# Looking forward to our cooperation!
